

## **SCHOOL MISSION**

Education is not just knowledge acquisition but it is overall development. At Budha Dal Public School, Patiala we aim at imparting quality education through fun interactive sessions for the next two academic years. The aim been to infuse an optimistic approach in each child so that he/she does not stagger when problem arises. At the same time is able to realise his/her aptitude and interest and therefore be able to make his mark in the maze of the world.
