

# BUDHA DAL PUBLIC SCHOOL, PATIALA

TERM 1

SUBJECT- EVS 1

SESSION-2023-24

NAME- \_\_\_\_\_ CLASS- 3

SECTION - \_\_\_\_

ROLL NO.- \_\_\_\_\_ SET- B

DATE- 12-9-23

TIME- 3 hrs.

M.M- 60

## A. Choose the correct option.

( 10 )

- 1) Which part of the skeletal system protects the brain ?  
(A) skull (B) ribs  
(C) joint (D) backbone
- 2) \_\_\_\_\_ is a cloud that appears very close to the ground.  
(A) fog (B) ice  
(C) steam (D) water
- 3) Which of the following hobbies is an art?  
(A) feather collection (B) swimming  
(C) trekking (D) painting
- 4) Backbone is also called the \_\_\_\_\_.  
(A) ribs (B) vertebral column  
(C) joints (D) all of these
- 5) Common salt is prepared from \_\_\_\_\_.  
(A) sea water (B) lake water  
(C) pond water (D) river water
- 6) How many bones are present in the body of an adult human being?  
(A) 306 (B) 206  
(C) 260 (D) 360
- 7) We use words like left, right and behind to tell the \_\_\_\_\_.  
(A) directions (B) time  
(C) distance (D) height
- 8) Which among the following flows upwards?  
(A) ice (B) snow  
(C) water vapour (D) water
- 9) The sun sets in \_\_\_\_\_ direction.  
(A) east (B) north  
(C) west (D) south

- 10) There are \_\_\_\_\_ main directions.  
(A) four (B) three  
(C) two (D) five

( 5 )

**B. Fill in the blanks :**

- 1) \_\_\_\_\_ works all the time even when we are sleeping.
- 2) Bones around the chest form the \_\_\_\_\_.
- 3) The \_\_\_\_\_ connects the throat to the lungs.
- 4) \_\_\_\_\_ lie between the main directions.
- 5) \_\_\_\_\_ takes the shape of the vessel it is kept in.

( 5 )

**C. Write True/False:**

- 1) Ice melts to form water when it becomes hot. \_\_\_\_\_
- 2) When you face the rising sun, that direction is west. \_\_\_\_\_
- 3) Nose is a part of digestive system. \_\_\_\_\_
- 4) Compass is a device used to find the directions on the surface of the earth. \_\_\_\_\_
- 5) The backbone helps us to stay erect. \_\_\_\_\_

( 4 )

**D. Give two examples:**

- 1) Organs of nervous system  
(a) \_\_\_\_\_ (b) \_\_\_\_\_
- 2) Hobbies that help us to work in groups  
(a) \_\_\_\_\_ (b) \_\_\_\_\_

Match the following:

(4)

- |                         |               |
|-------------------------|---------------|
| 1) small water droplets | ice and snow  |
| 2) cold places          | form clouds   |
| 3) respiratory system   | carries blood |
| 4) circulatory system   | breathing     |

**F. Name the following:**

(5)

- 1) The organ that has a memory like that of a computer.  
\_\_\_\_\_
- 2) The hard material inside our body.  
\_\_\_\_\_
- 3) The smallest bone in our body.  
\_\_\_\_\_
- 4) The direction in which the sun rises.  
\_\_\_\_\_
- 5) Form of water that has its own shape.  
\_\_\_\_\_

**G. Short answer questions:**

1. Name four sub-directions.

(2)

---

---

---

2. What is an organ system?

(2)

---

---

---

3. What makes our bones strong?

---

---

---

2. Defina...

4. What are hobbies?

(2)

---

---

---

5. Where does rainwater get collected?

(2)

---

---

---

**H. Long Answer Questions:**

1. Rain clouds appear closer to us as compared to other clouds. What can be the reason for this?

(3)

---

---

---

---

2. Define skeletal system. Name the important parts of the skeletal system. (3)

---

---

---

3. Write any three uses of hobbies. (3)

---

---

---

---

4. Write two differences between ice and water. (3)

---

---

---

---

I. 1) Draw a well labelled diagram of water cycle.

(3)

2) Label the following diagram.

(2)
